PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering (IoT) graduate from MIET, Meerut, with a strong foundation in full-stack and API development. Experienced in building RESTful APIs with Flask and FastAPI, working with SQL Server and .NET (C#), and shipping responsive frontends. Comfortable designing backend services, implementing token-based authentication, and delivering interactive web applications end-to-end.

EDUCATION

Meerut Institute of Engineering and Technology — Meerut
Bachelor of Technology — Computer Science & Engineering (IoT) — Graduated June 2026

SSN Inter College — Khatauli
Intermediate (12th) — 2022

New Children Public School — Khatauli
High School (10th) — 2020

TECHNICAL SKILLS

Languages	HTML5, CSS3, JavaScript (ES6+), Python, SQL, C# (.NET)
Frameworks	Flask, FastAPI, .NET (C#)
Tools	GitHub, VS Code, Postman
Web & API	RESTful APIs, DOM Manipulation, Component-Based Architecture, Responsive Design
Other	JWT Authentication, Stored Procedures, Debugging, Problem Solving

PROJECTS

Customer Management Admin Panel *Python, Flask, FastAPI, SQL Server, JavaScript, HTML/CSS*

- Built a full-stack admin panel with a Flask/FastAPI REST API and SQL Server for customer CRUD operations.
- Designed RESTful endpoints for customer records, authentication, and photo uploads with dedicated file-serving routes.
- Implemented session-based authentication and a responsive JavaScript frontend with dynamic card-grid views.

StayEase — Hotel Booking System *HTML, CSS, JavaScript, Python, Flask, SQL*

- Built a single-page application frontend integrated with a Flask REST API for a hotel booking system.
- Implemented 10 sections—Dashboard, Hotels, Rooms, Search, Auth, Bookings, Payments, Reviews, Revenue, and Audit & Reports—each backed by dedicated API endpoints.
- Created a dark-themed responsive UI with no external dependencies, targeting a local Flask REST API.

Snake Game *HTML5 Canvas, JavaScript, CSS*

- Built a browser-based Snake game using HTML5 Canvas with real-time rendering and keyboard controls.
- Implemented collision detection, dynamic food generation, score tracking, pause/resume, and restart.

CERTIFICATIONS

Google Cloud Innovators Certificate
MongoDB Certificate

KEY STRENGTHS

API Development • Full-Stack Web Development • Responsive Web Design • Quick Learner • Problem Solving • Teamwork & Collaboration • Strong Communication
